

Agenda Item: Regional Organization Perspectives

Presentation by: Alex Conley and Julie Morgan

Problem/Issue Statement

Regional Salmon Recovery Organizations have a unique and significant role in monitoring salmon recovery and watershed health. Their needs, interests, capacity, and perspectives are an important consideration as the Forum refines its vision and operational strategy.

Methods/Solutions Proposed

Alex Conley will lead a discussion of regional recovery board representatives regarding their role in monitoring and adaptive management for salmon recovery.

Attachments

PowerPoint handout available at the meeting.

What decision is asked of the Forum?

1. Primarily an informational briefing intended to stimulate a discussion around how the Forum can best serve the needs of regional organizations, and vice-versa.
