No Child Left Inside Grants Awarded 2016

Chelan County

Wenatchee River Institute Schoolyard Science and Summer Camps in Wenatchee

Grant Awarded: \$45,358

The Wenatchee River Institute will use this grant to offer summer camps for underserved youth in the Wenatchee area. Goals for the program focus on inspiring curiosity and wonder for the natural world, developing individual leadership and outdoor skills, and fostering a connection to place in nature. The program curriculum develops outdoor recreation skills, primarily hiking, and natural science knowledge related to the region and the value of natural resources. The summer camps will be offered primarily at the institute's facilities in Leavenworth, but the Schoolyard Science program will use four Wenatchee elementary schools. The institute is teaming up with the Wenatchee School District, which is contributing more than \$30,000. Local and state parks, as well as federal lands and trails also will be used for the camps. The Wenatchee River Institute will contribute \$41,331 in equipment, in-kind services, and donations of labor and materials. For more information and photographs of this project, visit RCO's [Project Snapshot](#). (16-1119)

Douglas County

See the project titled "The Service Board" under King County. The project includes work done in both Douglas and King Counties.

Island County

Young Women Empowered Girls Move the World: Puget Sound Nature Learning

Grant Awarded: \$50,000

Young Women Empowered, with Service Education & Adventure, Calyx School, and other partners, will use this grant to deliver a range of outdoor education, recreation, and environmental stewardship activities for 240 diverse, at-risk youth ages 5-18. Young women face gender-specific cultural barriers, safety concerns, and negative messages that discourage connecting with nature, outdoor recreation, and nature-based STEAM learning. STEAM is an acronym for science, technology, engineering, the arts, and math curriculum. Activities will include backpacking, beach walking, camping, environmental career learning, fishing, hiking, invasive species removal and native plant restoration, outdoor cooking, play, salmon habitat restoration, snowshoeing, and more. The activities will occur at nine Puget Sound locations

No Child Left Inside Grants Awarded 2016

using existing staff, volunteer mentors, and community partners. The program seeks to increase young people's connection with nature and awareness of outdoor activities, environmental issues, stewardship, self-confidence, and self-efficacy. It also links academic learning to real-world issues, skills, and behaviors and fosters healthy lifestyles. Young Women Empowered will contribute \$80,973 in staff labor, equipment, and in-kind services, and donations of equipment and labor. For more information and photographs of this project, visit RCO's [Project Snapshot](#). (16-1086)

King County

Puget Sound Educational Service District Adventure Seekers

Grant Awarded: \$59,636

The Puget Sound Educational Service District will use this grant to develop and implement an outdoor education curriculum for seven schools (Firgrove, Lister, Spanaway, and Star Lake Elementary Schools, and First Creek, Keithley, and Totem Middle Schools) as well as future 21st Century Community Learning Center programs. Staff, coordinators, and Adventure Seeker teachers will develop a design challenge where they will use aspects of nature to solve a problem, increase interest in local and state parks, and teach the benefits of being physically active as a career and healthy choice. The service district will contribute \$65,458 in state funding, a federal grant, in-kind services, and a donation of labor. For more information and photographs of this project, visit RCO's [Project Snapshot](#). (16-1093)

Seattle Outdoor Opportunities Program

Grant Awarded: \$31,985

The Seattle Parks and Recreation Department will use this grant to fund the Outdoor Opportunities program, which is designed to expose at-risk, inner-city teens to outdoor recreation, environmental education, conservation, and stewardship, while creating an environment for leadership and empowerment. The program serves Seattle teenagers, 15-19 years old at the Camp Long and Discovery Park Environmental Learning Centers. The program offers weekly workshops, monthly overnight trips, and conservation service projects. Workshop topics include technical outdoor living skills, wildlife, nature science subject matters, and environmental careers. The teens also are offered outdoor recreation opportunities, such as backpacking, canoeing, rafting, rock climbing, snow camping, and fishing. Conservation projects include planting river banks, rehabilitating wildlife, and building trails. The program uses recreation as a vehicle for education: the science topics are discussed in remote settings on the day and overnight trips and reinforced through the local service projects. The grant will pay for

No Child Left Inside Grants Awarded 2016

an equipment trailer, two AmeriCorps staff, contracted services, minor operating expenses, and participants' stipends for job training programs. Seattle will contribute \$80,400. For more information and photographs of this project, visit RCO's [Project Snapshot](#). (16-1273)

The Service Board Mentoring Teens Outdoors

Grant Awarded: \$50,000

The Service Board will use this grant to support its program, which serves 60-70 teens and 15 adult mentors for 6 months of outdoor adventure, service projects, and social and environmental justice workshops. The board's mission is to mentor teens to conquer personal and cultural challenges through public service and outdoor adventure. The board selects youth from Seattle high schools with the highest rates of poverty and youth violence. These students would otherwise not have the chance to spend time in outdoors. Service Board programs provide a strong support network of peers and adult mentors to help youth overcome challenges and make healthy choices. Through snowboarding, hiking, and public service, the teens build firsthand connections to the outdoors and improve their physical fitness, self-confidence, leadership skills, and sense of identity and belonging. Through service projects, the teens cultivate an ethos of care for their environments and practice solution-oriented thinking about systemic challenges. The Service Board will contribute \$70,088 in a private grant, in-kind services, and donations of cash. For more information and photographs of this project, visit RCO's [Project Snapshot](#). (16-1170)

YMCA of Greater Seattle BOLD/GOLD Outdoor Leadership Development

Grant Awarded: \$50,000

The YMCA of Greater Seattle will use this grant to support its Boys and Girls Outdoor Leadership Development program, which is a wilderness experiential education program designed to develop multi-cultural leadership skills in young men and women through challenging outdoor activities. The primary goal of BOLD/GOLD is to reduce and remove barriers so all youth, regardless of experience, ethnicity, or socio-economic status, can enjoy access to the outdoors through wilderness adventure, and to build leadership values and skills. The YMCA of Greater Seattle will contribute \$697,506 in another grant and donations of cash and equipment. For more information and photographs of this project, visit RCO's [Project Snapshot](#). (16-1219)

No Child Left Inside Grants Awarded 2016

Kitsap County

Salish Sea Expeditions Science under Sail for Healthy and Engaged Students

Grant Awarded: \$75,050

Salish Sea Expeditions will use this grant to pay for the boat lease, staff, equipment, and materials for its "Science under Sail" program. This program provides experiential, science-based environmental education for students in grades 5-12. Students learn about research and preparation, trip and meal planning, marine science, and maritime skills while aboard a 61-foot sailing research boat on Puget Sound. They also learn about overnight camping at Washington State Parks and how to synthesize data and present research findings. Salish programs link the classroom to the outdoors by working with kids at an age when many at-risk students begin to lose interest in school, many girls begin to lose interest in science, and many schools have inadequate time for outdoor activity. Students build confidence and teamwork by learning all skills necessary to command, sail, and navigate the sailing research vessel, and camping at State Parks is part of the multi-day outdoor experience. Salish Sea Expeditions will contribute \$287,800 in staff labor, a private grant, and in-kind services. For more information and photographs of this project, visit RCO's [Project Snapshot](#). (16-1150)

Kittitas County

Kittitas Environmental Education Network Pond to Pines: Outdoor Explorations at the Yakima Canyon Interpretive Center

Grant Awarded: \$72,948

The Kittitas Environmental Education Network will use this grant to expand its outdoor education efforts for 1 year. The goal of the Pond to Pines project is to make outdoor exploration and learning an integral part of school. The network will host three outdoor summer camps for 135 kindergarten through eighth graders and a Friday Outdoor after-School program for 30 kindergarten through eighth graders. The network also will augment elementary and middle school science kits with monthly, walkable field experiences for 425 third- through eighth graders and encourage family outdoor recreation through Second Sunday Guided Nature Walks, which is expected to serve 120 children. Through this grant, the network hopes to build a sustainable program structure that will allow camps, outdoor after-school, and schoolyard field trips to continue. The Kittitas Environmental Education Network will contribute \$51,874 in in-kind services and donations of cash. For more information and photographs of this project, visit RCO's [Project Snapshot](#). (16-1007)

No Child Left Inside Grants Awarded 2016

Lewis County

Capitol Region Educational Service District 113 Chehalis Basin Education and Restoration

Grant Awarded: \$40,424

The Capitol Region Educational Service District 113 will use this grant to buy supplies to allow students at the juvenile detention center to become watershed stewards and join the established Chehalis Basin Education Consortium. The supplies include curriculum materials, field guides and notebooks, greenhouse and gardening supplies, and water quality monitoring kits. Students at Lewis County Juvenile Detention Center and in the day reporting program will learn about and participate in restoration projects, water quality monitoring, and rearing of native plants in a greenhouse. The overall goal is to give students access to meaningful, educational opportunities and instill a sense of environmental stewardship that will continue after they are released. The students will raise plants and then plant them along the banks of waterways at restoration sites. The service district will contribute \$36,242 in donations of equipment, labor, and materials. For more information and photographs of this project, visit RCO's [Project Snapshot](#). (16-1257)

Mason County

Hood Canal School District Hood Canal BOOTS & Riparian Enhancement Program

Grant Awarded: \$57,937

The Hood Canal School District will use this grant to implement outdoor educational opportunities designed to increase student academic achievement, physical health, and social-emotional well-being. Through backpacking, wilderness travel, hiking, camping, mountaineering, challenge courses, adventure-based learning, rock climbing, and vocational and career field work, students will participate in a variety of recreational experiences that promote learning and enhance their lives. The Hood Canal School District will contribute \$40,381 in donations of equipment and labor. For more information and photographs of this project, visit RCO's [Project Snapshot](#). (16-1122)

No Child Left Inside Grants Awarded 2016

Okanogan County

Northwest Outward Bound School **Grant Awarded: \$20,000** **Methow Valley Youth Outdoor Program**

Northwest Outward Bound School will use this grant to offer experiential outdoor educational programming to seventh- and ninth-grade students in the Methow Valley School District and to all students at the Independent Learning Center. The program takes students and teachers out of the classroom and into the wilderness to build foundations of trust, communication, self-awareness, and challenge leading to academic success. Activities include rock climbing, group initiatives, hiking, journaling, and camping. The goals are to build deeper community between students, classes, and teachers; to foster a stronger understanding of the environment and appreciation for the wilderness; to expose students to incredible outdoor opportunities in their community; and to develop the attributes including curiosity, communication, living with principle, open-mindedness, balance, healthy lifestyles, caring, courage, reflection, and expeditionary learning. The experiential outdoor programs cultivate teamwork, personal growth, and a shift in how individuals perceive themselves, their potential, and their roles in the community. The Northwest Outward Bound School will contribute \$20,125 in, equipment, staff labor, materials, and donations of labor. For more information and photographs of this project, visit RCO's [Project Snapshot](#). (16-1079)

Pierce County

See the project titled "Adventure Seekers" under King County. The project includes work done in both Pierce and King Counties.

Snohomish County

Washington State University **Grant Awarded: \$35,792** **Glacier Peak Institute STEAM & Afterschool Program**

Washington State University will use this grant to expand the Glacier Peak Institute STEAM and Afterschool Program for middle school students. STEAM is an acronym for science, technology, engineering, the arts, and math curriculum. Based in Darrington, this project will build on a pilot program initiated after the 2014 Oso landslide. The university and institute will work with partners and volunteers to offer intensive weekly middle school natural resources' science, technology, engineering, and math curriculum and offer afterschool and extended nature

No Child Left Inside Grants Awarded 2016

experience outings. The pilot project created meaningful outdoor education and recreation opportunities where students developed critical thinking and leadership skills, an appreciation for and comfort in the outdoors, and an awareness of community history, personal health and nutrition strategies, and possible career paths in natural resources and science. Washington State University will contribute \$9,100 in in-kind services and a donation of labor. For more information and photographs of this project, visit RCO's [Project Snapshot](#). (16-1149)

Spokane County

Eastern Washington University LEARN Program

Grant Awarded: \$49,545

Eastern Washington University will use this grant to develop its Learning through Exploration, Adventure & Recreation in Nature (LEARN) pilot program, which gives at-risk students in Cheney opportunities for them and their families to engage in activities designed to develop and maintain healthy, active lifestyles; encourage environmental stewardship; and interact with veterans. LEARN incorporates interdisciplinary curriculum and character instruction with outdoor recreational and health promotion activities in Washington State parks and other outdoor areas. The students attend an alternative high school where 98 percent of the students qualify for the free and reduce lunch and 100 percent of the students qualify for the Learning Assistance Program. Eastern Washington University will contribute \$63,414 in equipment and staff labor. For more information and photographs of this project, visit RCO's [Project Snapshot](#). (16-1063)

East Central Community Center Camp Ben Burr

Grant Awarded: \$12,950

The East Central Community Center in Spokane will use this grant to lease a van or hire transportation services for field trips and purchase educational equipment and materials for Camp Ben Burr. This summer day camp gets at-risk, urban youth out into the community and promotes environmental stewardship. The van will allow the center to double the number of kids transported on excursions to parks, natural features, and on hot days, the pool. The grant also will help the center purchase equipment and materials to reinforce the education students receive on their field trips, in the community garden, and during their service projects. East Central Community Center will contribute \$42,807 in state funding, cash, local and other grants, in-kind services, and a donation of materials. For more information and photographs of this project, visit RCO's [Project Snapshot](#). (16-1250)

No Child Left Inside Grants Awarded 2016

West Central Community Center Spokane's Outdoor and Wilderness Learning (OWL)

Grant Awarded: \$55,496

The West Central Community Center will use this grant to expand its Outdoor and Wilderness Learning (OWL) program from 1 week to year-round. The program serves vulnerable youth from the ages of 5 to 18, who live in Spokane County, with a primary focus on the West Central and Emerson and Garfield neighborhoods. Through the OWL program, at-risk youth have opportunities to experience Washington State's great outdoors, including Riverside, Centennial Trail, and Mount Spokane State Parks. The program aims to improve students' life skills (emotional, nutritional, and physical health), their academic performance, and their overall levels of self-esteem. Outdoor learning will focus on nine modules, including backpacking, camping, environmental outdoor education, fishing, hiking, hunting, orienteering, outdoor cooking, and agriculture and farming. West Central Community Center will contribute \$60,522 in cash, in-kind services, and donations of labor and materials. For more information and photographs of this project, visit RCO's [Project Snapshot](#). (16-1192)

Thurston County

Garden-Raised Bounty GRuB Summer: Teens Growing in Thurston County

Grant Awarded: \$50,000

Garden-Raised Bounty (GRuB), a non-profit organization, in partnership with the Olympia and Tumwater School Districts will use this grant to engage more than 80 teens in hands-on, 7-week summer job training and drop-out prevention programs on three farms in Thurston County. With their hands in the soil, youth find greater self-esteem, self-care, academic confidence, and a profound sense of environmental and civic responsibility. Students raise 35,000 pounds of food, which is distributed to school nutrition programs, neighborhood markets, low-income families, and hunger programs. GRuB Summer reduces educational disparities for low-income and disengaged students and raises public awareness around issues of food security and environmental sustainability. GRuB's goals for this next year include launching a new "GRuB-pollinated" program and farm site serving the Tumwater School District and to support student development of a Habitat Conservation Plan to preserve Mazama pocket gopher habitat on a 15-acre farm owned by the Olympia School District. Garden-Raised Bounty will contribute \$92,000 in a federal and two other grants, and donations of materials. For more information and photographs of this project, visit RCO's [Project Snapshot](#). No Child Left Inside Grants Awarded 2016

Whatcom County

North Cascades Institute Youth Leadership Adventures in the North Cascades

Grant Awarded: \$40,000

The North Cascades Institute will use this grant to help pay the tuition for low-income students to attend the Youth Leadership Adventures courses. This education and outdoor recreation program consists of 8-day leadership courses in the North Cascades National Park or surrounding national forests, an annual Youth Leadership Conference, annual alumni reunion, and year-round mentoring. The program's goal is to introduce low-income and underserved youth to the value of the outdoors for recreation, health, work opportunities, and personal renewal. The program expects to enroll 81 students in backcountry canoe camping or backpacking courses this summer and 200 in the Youth Leadership Conference and reunion. The institute has support and participation from more than 50 community organizations, and supports at least four local, publicly-adopted strategic initiatives. The North Cascades Institute will contribute \$101,000 in local and private grants, in-kind services, and donations of cash. For more information and photographs of this project, visit RCO's [Project Snapshot](#). (16-1175)

Wild Whatcom Nature EdVentures

Grant Awarded: \$19,982

Wild Whatcom, a nonprofit dedicated to connecting kids to nature through exploration and mentoring, will use this grant to support its Nature EdVentures project in Bellingham. Wild Whatcom is partnering with Bellingham schools to engage 200 second graders from schools with a high percentage of low-income students in four field outings to explore nature firsthand and receive before and after learning sessions. Through place-based lessons, students will immerse themselves in the natural world and build a sense of place, scientific inquiry skills, positive character traits, and community stewardship. Along the way, students will learn about and directly experience the health benefits that come from outdoor recreation. Wild Whatcom will contribute \$28,500 in donations of equipment, labor, and materials. For more information and photographs of this project, visit RCO's [Project Snapshot](#). (16-1084)

No Child Left Inside Grants Awarded 2016

Yakima County

Yakima Valley Farm Workers

Grant Awarded: \$125,000

Northwest Community Action Center: Outdoor Adventure Program

Yakima Valley Farm Workers will use this grant to support the Northwest Community Action Center's Outdoor Adventure Program, which aims to provide meaningful experiences outside for youth who have little or no access to Washington's state and national parks. These experiences are critical for developing youths' appreciation of the state's diverse natural and cultural heritage, vital to the preservation of parks, and are aligned closely with grade-level learning standards. Each adventure is the culmination of a place-based curriculum emphasizing physical health, and academic, social, and emotional growth. Yakima Valley Farm Workers will contribute \$43,955 in a federal grant. For more information and photographs of this project, visit RCO's [Project Snapshot](#). (16-1143)
