Spokane County

Grant Requested: \$500,000

Preserving Parkland on Beacon Hill

The Spokane County Parks, Recreation and Golf Department and the City of Spokane Parks and Recreation Department will use this grant to buy 231 acres on Beacon Hill, connecting existing parks to create a contiguous 566-acre urban regional park. Located in the heart of Spokane County and the city of Spokane, Beacon Hill has been at the epicenter of mountain biking in the region for decades as well as a popular neighborhood area for hiking, dog walking, trail running, and more. This project not only will preserve miles of trail but also an urban space that serves one of Spokane's most distressed and disadvantaged neighborhoods. Spokane County will contribute more than \$2.7 million in Conservation Futures,¹ a private grant, a grant from the state Washington Wildlife and Recreation Program, and donations of labor and land or property interest. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1276)

Othello

Grant Requested: \$500,000

Developing Lions Park Pride Rock Playground

The City of Othello will use this grant to develop Pride Rock Playground in Lions Park. The new playground will replace unsafe 1950s equipment and grounds with safe play equipment and surfacing that are accessible to people with disabilities. The current play area will be redesigned for inclusion and efficiency, with landscaping and furnishings that offer shade and comfort during the hot Othello summers. The playground is geared towards children up to 12 years old. The project will directly benefit Othello's large youth population, 35 percent of whom live in poverty. Othello will contribute \$509,000 in cash, a grant from the state Washington Wildlife and Recreation Program, and donated cash. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1363)

Seattle

Grant Requested: \$500,000

Developing North Rainier Land Banked Park

The Seattle Parks and Recreation Department will use this grant to create a 1-acre park in the Rainier Valley neighborhood of southeast Seattle, one of the most demographically diverse regions in the nation. The project will enhance this dense, urban, under-represented, residential, and commercial neighborhood by creating a community recreation and gathering space. The park design includes a fitness zone, barbecue and picnic amenities, plantings and trees, and pathways for strolling, jogging, or skating. Seattle will contribute more than \$2.6 million in cash, council bonds, a private grant, and a grant from the Washington Wildlife and Recreation

¹Conservation Futures are a portion of property taxes used by local governments to buy land or development rights to protect natural areas, forests, wetlands, and farms.

Program. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1833)

Poulsbo

Grant Requested: \$370,000

Building an Inclusive Playground in Raab Park

The City of Poulsbo will use this grant to develop an inclusive playground in the 21-acre Raab Park. The playground will include seven pieces of equipment and numerous sensory stations, all designed to accommodate people with physical disabilities and provide a sensory-rich experience. The equipment will include pieces such as a wheelchair friendly merry-go-round, inclusive teetertotter, extra wide slides, and swing seats. The equipment will be located next to the park's small playground, which is accessible to people with disabilities, but not fully inclusive. No play equipment will be removed. The 9,000-square-foot playground will feature a soft, padded synthetic surface and wheelchair accessible ramps. The inclusive playground is a community effort. The Poulsbo North Kitsap Rotary Club formed a partnership with the City and is co-leading this community project alongside the Kitsap Community Foundation, special interest groups, and citizens. Raab Park is a well-used, community park and hosts a variety of activities, including the community gardens, a dog park, a walking trail, sport courts, and a skate park. Poulsbo will contribute \$379,824 in cash, staff labor, private and state grants, and donated labor. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1648)

Pierce County

Grant Requested: \$500,000

Expanding Opportunities at the Sprinker Recreation Center

Pierce County Parks and Recreation Services will use this grant to develop and renovate about 20 acres of the 44-acre Sprinker Recreation Center's outside area. The county will add synthetic turf ball fields, an entry plaza, a community event lawn, a playground, a spray park, sport courts, picnic shelters, and a trail connection to the Parkland Community Trail. In addition, the area will get new furnishings and restrooms will be renovated. This project will expand recreation opportunities and address the needs of a growing and diverse community. Dedicated in 1976, the center is in the Parkland and Spanaway communities and serves more than 167,000 people within 5 miles. Pierce County will contribute more than \$13.6 million in cash, state grants from the Washington Wildlife and Recreation Program and the Youth Athletic Facilities program, and donated cash. Visit RCO's online Project Snapshot for more information and photographs of this project. (20 1389)

Lakewood

Grant Requested: \$500,000

Developing Wards Lake Park

The City of Lakewood will use this grant to improve the 27-acre Wards Lake Park. Located in the northeast part of the city and next to Interstate 5, the park has expansive growth of invasive

Land and Water Conservation Fund Project Summaries (In Rank Order)

plants and sediment from incoming stormwater. It also has wetlands, oak prairie, and forest, along with trails and lawn areas. The city will build a paved, pump-track, a fenced 3-acre dog park, and 1 mile of loop trail, accessible to people with disabilities. In addition, the City will enhance the forest and native oak-prairie habitat areas and improve the critical wetlands. Finally, the City will improve pedestrian safety and add public art at the main entrance. Lakewood will contribute more than \$1.4 million in cash and state grants from the Washington Wildlife and Recreation Program and the Youth Athletic Facilities program. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1763)

Renton

Grant Requested: \$500,000

Replacing the Trestle Bridge in Gene Coulon Memorial Beach Park

The City of Renton will use this grant to replace the trestle bridge in Gene Coulon Memorial Beach Park on the south shore of Lake Washington. The park is Renton's most popular park, drawing more than 15,000 people for events and in a recent 6-hour count, more than 800 people were counted crossing the bridge. The bridge is a critical part of the park's pedestrian trail and a possible future connection to the regional Eastrail. The new bridge will provide a new viewpoint along the pedestrian trail and will include interpretive signs. The City will remove all 58 piles and the new bridge deck will allow light through, which is better for fish. Renton will contribute \$999,572 in council bonds. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1731)

Seattle

Grant Requested: \$500,000

Renovating Maple Wood Playfield

The Seattle Parks and Recreation Department will use this grant to renovate the 9.4-acre Maple Wood Playfield in the Beacon Hill neighborhood of southeast Seattle. The City will add new drainage and irrigation, regrade the fields, and add a new grass playing surface, backstops, dugouts, and bleachers. The City will make improvements elsewhere too by installing play equipment and reconfiguring the play area to optimize accessibility, safety, and parental supervision. Finally, the City will make changes to parking and pathways to accommodate people with disabilities. Maple Wood Playfield is widely used by multiple groups, schools, and leagues for baseball, softball, soccer, and football. Seattle will contribute more than \$2.8 million in cash and state grants from the Washington Wildlife and Recreation Program and the Youth Athletic Facilities program. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1828)

Gig Harbor

Grant Requested: \$500,000

Developing the Pickle Bo Spot in the Gig Harbor Sport Complex

The City of Gig Harbor will use this grant to continue development of its Pickle Bo Spot in the Gig Harbor Sports Complex, north of the YMCA parking lot. The City will build pickleball courts, bocce ball courts, a playground area, an event lawn, a sheltered performance stage, two covered picnic areas, and parking. Gig Harbor has experienced unprecedented growth in the past 10 years and is the third fastest growing city in Pierce County. The Gig Harbor Sports Complex will serve nearly 50,000 in the surrounding 5 miles. Gig Harbor will contribute more than \$2.6 million in cash, a grant from the state Washington Wildlife and Recreation Program, and donations of cash and labor. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1746)

Snohomish County

Grant Requested: \$500,000

Continuing Development of the Oso Landslide Memorial

The Snohomish County Department of Parks and Recreation will use this grant to build the second phase of a memorial park on the site of the deadly Oso landslide along State Route 530, 16 miles east of Arlington. The County will build a community gathering plaza and shelter and circulating pathways that take visitors through the memorial. The County also will install interpretive signs that explain what happened geologically, give tribute to the responders who assisted in the rescue efforts, tell stories from those rescued, and memorialize the 43 people who lost their lives. Additionally, the County will add benches, bollards, landscaping, retaining walls, and other small structures. The proposed development will give the many visitors to the site the opportunity to walk through the area and learn about what happened and understand the gravity of the event. The families of the victims have been intimately involved in the planning and fundraising for this memorial. Snohomish County will contribute more than \$2.1 million in cash, a private grant, a grant from the state Washington Wildlife and Recreation Program, and donations of equipment, labor, and materials. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1685)

Garfield Park and Recreation District
Improving Garfield Pool

Grant Requested: \$500,000

The Garfield Park and Recreation District will use this grant to replace the 60-year-old pool facilities that serve as the only water recreation for the community. Currently the pool liner is leaking, the lighting cannot be turned on as it risks electrocuting patrons, the restroom and locker room areas are outdated and not universally accessible, and the wading pool does not function. The district will replace the restroom, rehabilitate the lap pool, and replace the wading pool with a splash pad. The objective of this project is to add 50 years of life to this facility. The Garfield Park and Recreation District will contribute \$500,000 in a grant from the Washington

Land and Water Conservation Fund Project Summaries (In Rank Order)

Wildlife and Recreation Program and donated cash. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1431)

Sedro-Woolley Developing Olmsted Park

Grant Requested: \$500,000

The City of Sedro-Woolley will use this grant to develop 14.81 acres, which were part of the Northern State Hospital Campus, into Olmsted Park. Park elements will include parking, restrooms, pathways, picnic tables, benches, and a fishing pond. Named in honor of the Olmsted brothers who were the designers of the original hospital campus, this park will be the city's second destination park. Sedro-Woolley will contribute \$807,000 in cash and a grant from the state Washington Wildlife and Recreation Program. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1345)

University Place Renovating Cirque Park

Grant Requested: \$363,628

The City of University Place will use this grant to renovate Cirque Park, the city's main park. The City will build a playground designed for kids ages 5 to 12 and develop new challenges at the skate park by adding four new concrete features. In addition, the City will pave the gravel walking path surrounding the park to make it accessible to people with disabilities and will add nine fitness stations there. University Place will contribute \$363,629. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1618)

College Place Developing a Fitness Trail and Fishing Pond in Lions Park

Grant Requested: \$500,000

The City of College Place will use this grant to develop a quarter-mile fitness trail and restore the pond in Lions Park. The City will develop fitness zones along the trail that include resistant weight strengthening. In addition, the City will dredge the pond and restore the banks of the pond and creek, remove the fish weir, and add a fishing dock that is accessible to people with disabilities. Finally, the City will install stormwater treatment and lighting. College Place will contribute \$889,233 in cash and donations. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1360)

Monroe Conserving an East Monroe Natural Area

Grant Requested: \$500,000

The City of Monroe will use this grant to buy 43 acres of natural open space along the Skykomish River in Snohomish County. Located off U.S. Route 2, between Woods Creek Road and Calhoun Road, the land is a diverse compilation of bluffs, salmon-bearing oxbow channel, and wetlands, which provide critical places for fish to rest during high water flows. There is a

natural connection to the Skykomish River and the 90-acre Al Borlin Park to the southwest. The landowner has requested to rezone the land to allow commercial and multiuse activities and previously had requested to clear the land and add 60,000 cubic yards of fill (about 6,000 truckloads of material). Monroe will contribute more than \$2.3 million in cash, Conservation Futures,² and a state grant. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1286)

Walla Walla

Grant Requested: \$500,000

Redeveloping Heritage Square Park

The City of Walla Walla will use this grant to renovate and develop Heritage Square Park to transform an underused park in the city's historic and vibrant downtown into a centerpiece. The City will convert the park's parking lot into park space and install a water feature, performance stage, and restroom. Walla Walla will contribute nearly \$2 million in cash, a private grant, and a grant from the Washington Wildlife and Recreation Program. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1888)

Mountlake Terrace

Grant Requested: \$500,000

Improving the Evergreen Playfield

The City of Mountlake Terrace will use this grant to redevelop Evergreen Playfield Number 3, in central Mountlake Terrace. The City will convert the dirt infield to synthetic turf with a grass outfield that will support baseball and softball. In addition, the City will add new field lights, fencing, backstop, dugouts, and other field amenities. The City will grade the area surrounding the field for new seating areas, parking, and landscaping. Mountlake Terrace will contribute \$979,000 in cash and a state Youth Athletic Facilities grant. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1643)

Lake Stevens

Grant Requested: \$428,210

Finishing Eagle Ridge Park

The City of Lake Stevens will use this grant to finish development of Eagle Ridge Park. The City will build an amphitheater, an outdoor classroom, a nature-themed playground, and restrooms. In addition, the City will install lights, build pedestrian pathways and parking, and landscape the park. Finally, the City will preserve and protect the park's wetland habitat that supports breeding nests for eagles. The park is used mostly for outdoor education, hiking, and playground use. Lake Stevens will contribute \$566,990 in cash and a grant from the Washington Wildlife and

²Conservation Futures are a portion of property taxes used by local governments to buy land or development rights to protect natural areas, forests, wetlands, and farms.

Land and Water Conservation Fund Project Summaries (In Rank Order)

Recreation Program. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1818)

Peninsula Metropolitan Park District Grant Expanding Narrows Park

Requested: \$500,000

The Peninsula Metropolitan Park District will use this grant to buy 116 acres of forested land, next to Narrows Park. The land includes 350 feet of shoreline on the Tacoma narrows, extending Narrows Park shoreline to more than a quarter-mile. The land includes a seasonal stream, rolling uplands, steep banks to the water, and flatter upland areas for recreation. The Peninsula Metropolitan Park District will contribute \$2.6 million in Conservation Futures³ and a grant from the Washington Wildlife and Recreation Program. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1798)

Covington Creating an Entry to Jenkins Creek Park

Grant Requested: \$500,000

The City of Covington will use this grant to buy nearly 2 acres and develop them as the main entry to the 22-acre Jenkins Creek Park. The park sits in the center of Covington but lacks visibility from a major street, suffers from no main entrance, and is not well used. The City will add parking, entry signs, a trailhead kiosk, garbage cans, lighting, and a gate. In addition, the City will restore a stream and improve the natural environment that is known for rare native plants and animals. The land is zoned for commercial use and is at risk of development. Covington will contribute more than \$2.9 million in cash, Conservation Futures,⁴ and a grant from the Washington Wildlife and Recreation Program. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1858)

Chelan Renovating Lakeside Park

Grant Requested: \$500,000

The Chelan Parks and Recreation Department will use this grant to renovate Lakeside Park. The heavily used park provides significant public access to Lake Chelan. The goals of the renovation are to expand capacity, improve accessibility, and increase recreational opportunities. The City will add swim platforms and float lines, enhance the launch for nonmotorized boats, add parking, renovate the restroom, expand accessibility for people with disabilities with pathways and other improvements, renovate the playground with natural and sculptural elements, and expand the beach landward to increase access while decreasing erosion. Other sustainability

³Conservation Futures are a portion of property taxes used by local governments to buy land or development rights to protect natural areas, forests, wetlands, and farms.

⁴Conservation Futures are a portion of property taxes used by local governments to buy land or development rights to protect natural areas, forests, wetlands, and farms.

features include a green roof and natural lighting in the restroom, native plants to improve habitat near the beach and for pollinator species, permeable paving in parking areas, and stormwater treatment. Chelan will contribute a \$687,596 in cash and a grant from the state Washington Wildlife and Recreation Program. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1943)

King County

Grant Requested: \$500,000

Developing an Entry to Little Lake Forest Park

The King County Parks and Recreation Division will use this grant to buy and develop 5.11 acres in unincorporated King County near Enumclaw as an entry to Little Lake Forest Park. The County bought the 155-acre forest in 2018 to increase public access to nature in south King County and to conserve this ecologically rich landscape. The County will install a play area, picnic shelter, seating areas, a restroom, native plants, and interpretive signs. King County will contribute \$826,065 in cash, Conservation Futures,⁵ and donated labor. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1533)

Zillah

Grant Requested: \$255,170

Building a Splash Park

The City of Zillah will use this grant to design and develop a splash park, complete with landscaping and seating, in Loges City Park. The proposed splash park will be off the main road that runs through Zillah on the northeast corner of the city park. This project will provide a safe alternative for people who would otherwise swim in the Yakima River. The project will be Zillah's first splash pad. In addition to providing outdoor recreation opportunities, the park also will serve as a gathering place for the community and visitors alike. Zillah will contribute \$255,170 in cash and a grant from the state Washington Wildlife and Recreation Program. [Visit RCO's online Project Snapshot for more information and photographs of this project](#). (20-1305)

Port of Anacortes

Grant Requested: \$500,000

Developing the Cap Sante Marina RV Park

The Port of Anacortes will use this grant to develop a recreational vehicle (RV) park in the Cap Sante Marina. The current RV park is a gravel lot with 22 spaces and no utility hook-ups, forcing drivers to run their motors for electrical power. The Port will create 25 spaces with hedges for privacy, add a garbage and recycling area, and install utility hook-ups for sewer, water, cable, and power. The hook-ups will eliminate the reliance on generators and reduce noise and air pollution. The Port also will collect and treat stormwater and pave roads and pathways. The new RV park will connect visitors to the marina restroom and laundry services and to waterfront

⁵Conservation Futures are a portion of property taxes used by local governments to buy land or development rights to protect natural areas, forests, wetlands, and farms.
