Youth Athletic Facilities Project Summaries (In Rank Order)

Large Project Category

Othello

Grant Requested: \$350,000

Renovating Basketball Courts in Lions Park

The City of Othello will use this grant to develop a basketball zone at Lions Park. Two aging and deficient basketball courts originally installed in 1974 will be replaced by four, state-of-the-art courts, including a championship court with a decorative design, a grass seating area for spectators, and team benches. This project will meet two important needs in Othello and the region. Upgrading the court quality and doubling its capacity will improve the safety, playability, and availability of the facility. The project also will expand outdoor recreational opportunities for Othello's large, underserved youth population, 35 percent of whom live in poverty. Othello will contribute \$132,000 in cash and donated cash. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1361)

Clark County

Grant Requested: \$350,000

Developing Sports Fields in Curtin Creek Community Park

The Clark County Department of Public Works will use this grant to build two multiuse fields in its new 16-acre Curtin Creek Community Park, in Vancouver. The County will build one natural multiuse field prioritized for rugby and one synthetic multiuse field with lighting for soccer and baseball. There is a deficit of 54 sport fields and no rugby fields in the county's current park system. The park includes gently rolling pasture with mountain views. The future development plan includes walking paths, a large parking lot, wildlife viewing areas, picnic shelters, benches, a combined restroom and maintenance building, and playground areas. Clark County will contribute more than \$1.9 million in cash and a grant from the Washington Wildlife and Recreation Program. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1664)

Kent

Grant Requested: \$350,000

Renovating Kent Memorial Park

The City of Kent will use this grant to help renovate Kent Memorial Park by replacing a grass baseball field with an artificial turf, multi-purpose field. The City also will replace field lighting, bleachers, and a restroom. The City will contribute more than \$4.4 million

Youth Athletic Facilities

Project Summaries (In Rank Order)

in cash and a grant from the Washington Wildlife and Recreation Program. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1263)

Pierce County

Grant Requested: \$350,000

Converting Sprinker Fields to Synthetic Turf

Pierce County Parks and Recreation Services will use this grant to convert two ball fields from grass to multipurpose, synthetic turf with soccer and lacrosse overlays at the Sprinker Recreation Center. The County also will add lighting. The synthetic turf will expand youth athletic recreation opportunities by allowing soccer, lacrosse, and football practice. The new turf and lighting will allow year-round use. Dedicated in 1976, the center is in the Spanaway community and serves more than 167,000 people living within 5 miles. Pierce County will contribute more than \$3.6 million in cash, grants from the federal Land and Water Conservation Fund and the state Washington Wildlife and Recreation Program, and donated cash. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1285)

Bremerton

Grant Requested: \$350,000

Improving Access in Haddon Park

The City of Bremerton will use this grant to develop pathways throughout the park so people with disabilities can reach new park amenities including a restroom and multiuse sports court. Currently no part of the park is accessible to people with disabilities. The 4-acre Haddon Park is an aging neighborhood park with pathways and a sports court. Bremerton will contribute \$64,195 in cash, staff labor, a private grant, and a grant from the state Washington Wildlife and Recreation Program. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1323)

Olympia

Grant Requested: \$350,000

Renovating a Field in Little Baseball Association Park

The City of Olympia Parks, Arts, and Recreation Department will use this grant to renovate a ball field in Little Baseball Association Park, known locally as LBA Park, in southeast Olympia. The City will install new backstops and dugouts, recondition both infield and outfield surfaces with a soil mix and turfgrass suited for high-use athletic fields, improve access to the field and common areas for people with disabilities, replace aging irrigation components, and address drainage issues. The field was recently closed due to safety concerns with the playing surface that included soft spots due to poor drainage and mole and rodent damage contributing to player injuries in the outfield.

Youth Athletic Facilities

Project Summaries (In Rank Order)

This project will allow expanded use by thousands of youth annually. Olympia will contribute \$364,034. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1553)

Port Gamble S'Klallam Tribe Developing Warrior Ridge Sports Park

Grant Requested: \$350,000

The Port Gamble S'Klallam Tribe will use this grant to develop a 13-acre sports park to include three synthetic turf baseball infields and grass outfields, one of which also will accommodate soccer. The Tribe also will install lighting on one field and add parking. The lighting will greatly expand the year-round usability of the field. This is part of a larger project that will include building a children's play area, a plaza, a perimeter walking trail, and picnic and lawn areas. The Tribe is developing the sports park to serve the entire community. The Port Gamble S'Klallam Tribe will contribute more than \$3.6 million in cash, a federal grant, and a grant from the state Washington Wildlife and Recreation Program. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1890)

Lakewood Installing Artificial Turf on Ball Fields in Fort Steilacoom Park

Grant Requested: \$350,000

The City of Lakewood will use this grant to install synthetic turf on three dirt baseball infields in Fort Steilacoom Park to support youth sports. The baseball fields do not support high use and wet weather often leads to unsafe playing conditions and cancelations. Replacing the dirt infields with synthetic turf will make Fort Steilacoom Park more desirable for youth sport leagues, create a home field for collegiate athletics, increase the number of baseball and softball tournaments, and create more drop-in opportunities for our underprivileged citizens. Lakewood will contribute \$994,000 in a state grant. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1765)

Port Angeles Building a Bicycle Pump Track

Grant Requested: \$350,000

The City of Port Angeles will use this grant to build a bicycle pump track in Erickson Playfield. A pump track is a series of looped paths that allows riders to build bicycle skills in a contained area away from traffic. With the loop design, parent easily can watch or ride and supervise kids with different skills and interests. A unique feature of this track is an inclusive loop with mild features suitable for beginning riders and people in

Youth Athletic Facilities

Project Summaries (In Rank Order)

wheelchairs, a first for pump tracks in Washington. Pump tracks in other locations are destination facilities for tourists and host competitive events. The City is partnering with world renown design-build team Velosolutions to ensure our track offers a great ride for kids and can host official competitions. Port Angeles will contribute \$47,500 in cash, local and private grants, and donations of equipment, labor, and materials. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1237)

White Salmon Valley Park District Building the White Salmon Valley Pool

Grant Requested: \$350,000

The White Salmon Valley Park District will use this grant to design and build a multi-lane, 25-yard swimming pool for competitive swimming programs. The park district also will build bathrooms, changing rooms, lockers, showers, a staff office, and an equipment room. The swimming pool is one of three pools in a larger project that includes a therapeutic pool, a wading and splash pool, a community room, and additional restrooms and showers, lockers, and changing rooms. The new pool complex will replace the closed White Salmon City Pool, which served the communities of the White Salmon Valley since its construction in 1934. When completed, the pool facility will meet the community needs for competitive youth swim programs, general swim recreation and exercise, and aquatic safety education. The White Salmon Valley Park District will contribute more than \$1.2 million in cash, a grant from the Washington Wildlife and Recreation Program, and donations of cash and materials. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1811)

Whatcom County

Grant Requested: \$350,000

Building a Sports Court in the East Whatcom Regional Resource Center

The Whatcom County Parks & Recreation Department will use this grant to develop a multiuse sports court for basketball, pickleball, volleyball, and other activities in the East Whatcom Regional Resource Center. The court will have lighting and a roof with open sides to allow activities year-round in an area where 60 inches of rain falls annually. The sports court will serve a large, unincorporated, area with more than 4,000 residents, who have a relatively low median household income. The closest similar sports court is 30 miles away. Whatcom County will contribute \$200,470 in a private grant. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1735)

Youth Athletic Facilities

Project Summaries (In Rank Order)

Lakewood

Grant Requested: \$350,000

Building a Pump Track in Wards Lake Park

The City of Lakewood will use this grant to build a paved pump track that can be used by bikes, skateboards, wheelchairs, and other wheeled devices. The City will develop a 10,000-square-foot facility in an underused part of the 27-acre Wards Lake Park. The City has spent the past 20 years acquiring land to create an open space in this densely populated area, which is near Interstate 5, commercial areas, the International District, and also is deficient in park amenities. The surrounding community is economically distressed. Lakewood will contribute \$38,907. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1764)

Buckley

Grant Requested: \$75,000

Building the Rainier Gateway Sports Court

The City of Buckley will use this grant to build a multipurpose sports court next to the Foothills Trail and the Buckley Youth Activity Center in the heart of the city. The sports court will be lighted and designed for competitive basketball and pickle ball. The City also will add a pathway accessible to people with disabilities from the sports court to the center's parking lot and the trail. Buckley will contribute \$92,694. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1268)

Boys & Girls Clubs

Grant Requested: \$334,306

Renovating the Clarkston Club Athletic Field

The Boys & Girls Clubs of the Lewis Clark Valley will use this grant to renovate two regulation-length soccer fields, increasing the athletic opportunities. The clubs will add new soil, irrigation, and a concrete walkway around the field. In addition, the clubs will add concrete viewing areas and an entrance for people with disabilities. The 2-acre field behind the Clarkston Club was built 17 years ago. The soil composition does not support the amount of traffic this field gets and consistently has issues with grass growth, hydration, dirt patches, dry spots, and weeds. This field is also difficult to access for those with mobility issues. The Clarkston Club Unit provides programming to more than 1,200 kids. The Boys & Girls Clubs will contribute \$38,146. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1211)

Youth Athletic Facilities

Project Summaries (In Rank Order)

Mountlake Terrace Restoring Evergreen Playfield Tennis Courts

Grant Requested: \$350,000

The City of Mountlake Terrace will use this grant to redevelop the tennis courts in the Evergreen Playfield Complex. The City will repair, resurface, and line the existing courts and replace the lighting. The City also will replace or improve fencing, gates, pathways, parking, and landscaping. Mountlake Terrace will contribute \$209,000. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1773)

Rj's Kids Enhancing the Pump Track at the Burton Adventure Recreation Center

Grant Requested: \$166,875

Rj's Kids will use this grant to enhance the pump track at the Burton Adventure Recreation Center. The group will add a cross-path skate feature to the pump track and four pods with integrated skate features connected by a path. The improvements will enable the center to provide experiences for beginner and advanced users, allow for competitive bicycling and skateboarding for ages up to 18, and accommodate adult amateurs of all wheeled sports. The Burton Adventure Recreation Center features an indoor skate park, outdoor skate bowl, volleyball area, outdoor ping-pong table, mountain biking and walking trails, and a Frisbee disc golf course. Rj's Kids will contribute \$69,425 in a private grant and donations of equipment, labor, and materials. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1886)

Mountlake Terrace Improving the Evergreen Playfield

Grant Requested: \$350,000

The City of Mountlake Terrace will use this grant to redevelop Evergreen Playfield Number 3 in central Mountlake Terrace. The City will convert the dirt infield to synthetic turf with a grass outfield for baseball and softball. In addition, the City will add new field lights, fencing, backstop, dugouts, and other field amenities. The City will grade the area surrounding the field for new seating areas, parking, and landscaping. Mountlake Terrace will contribute more than \$1.1 million in cash and a grant from the federal Land and Water Conservation Fund. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1642)

Youth Athletic Facilities

Project Summaries (In Rank Order)

Hoquiam **Repairing and Preserving Olympic Stadium**

Grant Requested: \$350,000

The City of Hoquiam will use this grant to repair and preserve Olympic Stadium, one of the last remaining Works Progress Administration wooden stadiums in the country. The stadium is used year-round for football, baseball, and soccer. The City will repair and improve the fields and grandstands, fix and paint the siding, and improve access for people with disabilities. Hoquiam will contribute \$100,000. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1829)

Ilwaco **Improving the Baseball Field and Basketball Court**

Grant Requested: \$190,933

The City of Ilwaco will use this grant to continue redevelopment of City Park by improving the baseball field and basketball court. To the baseball field, the City will add new dugouts, bleachers, infield surfacing, a batting cage, fencing, and a storage structure. The City also will renovate the 27-year-old basketball court. The baseball field is one of few local resources for competitive sports practice and games. This project is important to the community because City Park is the only park of its type on the south end of the Long Beach Peninsula. Ilwaco will contribute \$139,999 in cash, a private grant, and donations of cash, labor, and materials. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1808)

Peninsula Metropolitan Park District **Replacing Turf in Sehmel Homestead Park**

Grant Requested: \$350,000

The Peninsula Metropolitan Park District will use this grant to replace the synthetic turf at Sehmel Homestead Park's multipurpose field. Installed in 2010, the turf is showing wear—the turf fibers are lying flat in many areas and the field drains very slowly, often leaving standing water, which cancels games. The field is used for soccer, football, lacrosse, and summer camps. The Peninsula Metropolitan Park District will contribute \$637,466. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1560)

Seattle **Installing New Lights in West Queen Anne Playfield**

Grant Requested: \$350,000

The Seattle Parks and Recreation Department will use this grant to improve lighting at the West Queen Anne Playfield's east fields. The playfield was built in 1971 and the

Youth Athletic Facilities

Project Summaries (In Rank Order)

lights, which are mounted on wood poles, have not been replaced since. The City will replace the field lights that surround two baseball fields and an overlapping soccer and ultimate Frisbee field. The playfield is in the central west part of Seattle that has the fewest number of lit turf fields in the city. The playfield is in very high demand by local Little Leagues and serves as a nexus of recreation activity, next to the commercial core of a dense residential neighborhood, and within site of the Queen Anne Community Center, Queen Anne Pool, and McClure Middle School. Seattle will contribute \$441,000. Visit RCO's online Project Snapshot for [more information and photographs of this project.](#) (20-1303)

Kalispel Tribe of Indians Renovating Usk Basketball Courts

Grant Requested: \$233,333

The Kalispel Tribe will use this grant to renovate the basketball court area at the Kalispel Pow Wow Grounds for community use. The Tribe will renovate the more than 20-year-old basketball court area from its worn and rundown state to an extended size with a new and refurbished dual playing court area. The new courts will provide needed playing areas for the community. The Kalispel Tribe will contribute \$116,667 in a local grant. Visit RCO's online Project Snapshot for [more information and photographs of this project.](#) (20-1810)

Port Angeles Installing Synthetic Turf on a Baseball Field

Grant Requested: \$350,000

The City of Port Angeles Parks and Recreation Department will use this grant to replace the grass on the baseball field with synthetic turf. Bad weather limits use of the field. Synthetic turf will allow the baseball field to host youth baseball and softball games. The renovation will increase use of the field and the number of participants. Port Angeles will contribute \$255,500 in cash, a private grant, equipment, and donations of equipment and labor. Visit RCO's online Project Snapshot for [more information and photographs of this project.](#) (20-1356)

Wenatchee Renovating the Wenatchee City Pool

Grant Requested: \$350,000

The City of Wenatchee will use this grant to replace the plaster liner and tiles in the city pool to maximize safety, sustainability, and the visitor experience. The pool liner, which was replaced in 1996, is showing significant wear and requiring excessive maintenance, as well as leaking water into the ground. The pool is used by more than 25,000 people

Youth Athletic Facilities

Project Summaries (In Rank Order)

annually for swimming lessons, recreational and lap swimming, water fitness, special needs programming, swim teams, local and regional competitions, and the Apple Capital Swim Meet, one of the largest tourist events in the Wenatchee Valley. Wenatchee will contribute \$538,000 in cash and staff labor. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1238)

Winthrop Rink **Improving the Winthrop Ice Rink**

Grant Requested: \$141,648

The Winthrop Rink will use this grant to replace worn out perimeter dasher boards and safety glass at the Winthrop Rink, a unique and popular outdoor skating facility. The boards are essential to the function of the rink for winter hockey, recreational ice skating, youth skills development programs, as well as summer pickle ball and roller skating. The existing boards were purchased used and are past their useful life, creating potentially unsafe conditions. Winthrop Rink will contribute \$47,217 in a local grant. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1434)

Pasco **Improving Goal Posts and Restrooms in Highland Park**

Grant Requested: \$221,870

The City of Pasco will use this grant to install goal posts on two football fields and a restroom building in Highland Park. The new goal posts will be Y-shaped instead of H-shaped, improving safety by reducing on-field collision points. The restrooms, which will be accessible to people with disabilities, will be installed centrally, instead of at the current location at the far edges of the field. The current restrooms are outdated, undersized, and supplemented by portable toilets. Pasco will contribute \$82,000 in cash and donations of cash and materials. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1639)

Omak **Replacing the Skatepark in Omak's Eastside Park**

Grant Requested: \$350,000

The City of Omak will use this grant to remove the skatepark in Eastside Park and build a new one at a better location in the park. Twenty years ago, a high-quality concrete skatepark was an impossible goal, so the skatepark was built of wood ramps on a flat slab. The park has served generations of skaters, but the wood ramps have succumbed to the harsh weather. The new skatepark will be in ground and made of concrete and steel. This project is the first phase of a multi-phased effort to redevelop Omak's

Youth Athletic Facilities

Project Summaries (In Rank Order)

Eastside Park, a 76.6-acre destination park on the Colville Indian Reservation. Omak will contribute \$68,465 in cash and a grant from the Washington Wildlife and Recreation Program. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1712)

Sumner

Grant Requested: \$350,000

Revamping a Basketball Court in Rainier View Park

The City of Sumner will use this grant to renovate the basketball court at Rainier View Park. The City will cover the entire court with a roof to encourage use in all weather conditions, paint and stripe the court for three pickleball courts and one volleyball court, and add four adjustable hoops to allow for one full or two half basketball courts. The renovation will increase access by adding a courtyard and route to the multi-sport court that will be accessible to people with disabilities. Additional project elements include skylights, lighting, and sitting walls to act as backstops for errant balls. Sumner will contribute \$587,500 in cash and a state grant. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1231)

Pacific Little League

Grant Requested: \$128,432

Preparing a Baseball Field for Improvements

The Pacific Little League will use this grant to convert two Little League fields into one large field on the 8.5-acre Veteran's Administration Medical Center campus in Walla Walla. The Little League will demolish the existing field's sprinkler systems, remove fencing, strip the infield and vegetation, and remove concrete benching and pathways. The Pacific Little League then will build an infield, install irrigation and fencing, and move the press box and storage building. This project will allow the Little League to add an intermediate division to its existing four playing levels and host regional and state tournaments. The Pacific Little League will contribute \$14,271 in donated cash. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1826)

Aberdeen

Grant Requested: \$261,900

Replacing Fencing and Restrooms in Pioneer Park

The City of Aberdeen will use this grant to replace the restrooms and fence around the Little League field in Pioneer Park. The 4-foot-tall fence was installed in the 1980s and will be replaced with 6-foot-tall fences. The 1970s restroom next to the Little League field is not accessible to people with disabilities and will be demolished. In its place, the

Youth Athletic Facilities

Project Summaries (In Rank Order)

City will install a pre-fabricated, concrete restroom that is universally accessible along with a paved path from the park sidewalks to the restrooms. Aberdeen will contribute \$39,960 in cash, staff labor, and a private grant. Visit RCO's online Project Snapshot for [more information and photographs of this project.](#) (20-1355)

Seattle

Grant Requested: \$350,000

Renovating Maple Wood Playfield

The Seattle Parks and Recreation Department will use this grant to renovate 5 acres in Maple Wood Playfield in the Beacon Hill neighborhood of southeast Seattle, one of the most diverse areas in the nation. The City will add new drainage and irrigation, regrade the fields, resurface the basketball court, and add a grass playing surface, backstops, dugouts, and bleachers. The City will make changes to parking and pathways to accommodate people with disabilities. The 9.4-acre Maple Wood Playfield is widely used by multiple groups, schools, and leagues for baseball, softball, soccer, and football. Seattle will contribute more than \$2.4 million in cash and grants from the federal Land and Water Conservation Fund and the state Washington Wildlife and Recreation Program. Visit RCO's online Project Snapshot for [more information and photographs of this project.](#) (20-1298)

North Bonneville

Grant Requested: \$114,750

Renovating the Community Sport Court and Restrooms

The City of North Bonneville in partnership with the Bonneville Trails Foundation will use this grant to move and update its basketball court and renovate the restroom in North Bonneville Community Park. The City will convert the basketball court into a multiuse sport court and renovated the restroom to accommodate people with disabilities. The current facilities are more than 40 years old and the renovations will provide several new community athletic opportunities. North Bonneville will contribute \$38,250. Visit RCO's online Project Snapshot for [more information and photographs of this project.](#) (20-1662)

Snohomish County

Grant Requested: \$65,000

Installing Irrigation and Drainage in Fairfield Park

The Snohomish County Department of Parks and Recreation will use this grant to renovate Fairfield Park in southeast Snohomish County. The County will update the playfield to add drainage and sprinkler systems. This will improve the fields and allow for multiple sports including soccer, lacrosse, and various other field sports or leisure play. Snohomish County will contribute \$35,000 in a private grant and donated labor. Visit

Youth Athletic Facilities

Project Summaries (In Rank Order)

RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1675)

South Bend

Grant Requested: \$350,000

Adding Synthetic Turf to a Ball Field

The City of South Bend will use this grant to convert a grass athletic field to a synthetic turf, multiuse athletic field. The field is at the South Bend School District. The field's new surface will increase use and allow the field to be used for community events and youth athletic teams. South Bend will contribute more than \$1 million in cash and a private grant. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1729)

College Place

Grant Requested: \$349,550

Improving Lions Park Fields and Restrooms

The City of College Place will use this grant to restore and develop multiuse fields (soccer and baseball) and renovate the restrooms at Lions Park. The City also will replace the irrigation and security lighting. College Place will contribute \$117,614 in cash and a private grant. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1566)

Everett

Grant Requested: \$224,841

Building a Multiuse Sports Court in Edgewater Park

The City of Everett Parks and Community Services will use this grant to build a multiuse sports court at Edgewater Park. Development of the court will include designations for tennis, pickle ball, and basketball. The City also will build pathways accessible to people with disabilities and landscape the area. Everett will contribute \$74,947. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1579)

Chuckanut Bay Athletic Association

Grant Requested: \$140,475

Improving Access and Parking in Ferndale

The Chuckanut Bay Athletic Association will use this grant to improve the entrance, create a parking lot, and reseed a field at its 17-acre site in Ferndale. The association is building a three-field complex, complete with grandstands, locker rooms, and amenities for local youth teams. The facility is in constant use throughout the year and is overwhelmed in the spring and fall. The project will make more efficient use of the site, enable the fields to serve more people, and retain space for international matches and

Youth Athletic Facilities Project Summaries (In Rank Order)

local play and practice. The Chuckanut Bay Athletic Association will contribute \$46,825 in local and private grants and donated equipment. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1290)

Fircrest

Grant Requested: \$158,515

Improving the Fircrest Park Athletic Field

The City of Fircrest will use this grant to renovate the field lights and natural turf of five, multipurpose sport fields at Fircrest Park. The 7.8-acre community park provides fields that accommodate softball, Little League baseball, tee ball, and soccer. Completing this renovation will enhance the field playability, allow for nighttime play, and generally transform it into a better multisport park. Fircrest will contribute \$158,515 in voter-approved bonds. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1232)

Youth Athletic Facilities Project Summaries (In Rank Order)

Small Project Category

Fircrest

Grant Requested: \$16,000

Renovating Gene Goodwin's Tennis Courts

The City of Fircrest will use this grant to renovate three tennis courts and add stripping for pickleball in the 1.4-acre Fircrest neighborhood park called the Gene Goodwin Tot Lot. The renovation will ensure that tennis can continue to be offered to the community while expanding the users to include pickleball players. The popular park also includes a playground geared towards kids aged 1-6, bathrooms, picnic tables, and a walking path. Fircrest will contribute \$16,000 in voter-approved bonds. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1437)

Olympic Peninsula Boys & Girls Club

Building a Multiuse Athletic Field

Grant Requested: \$35,542

The Olympic Peninsula Boys & Girls Club will use this grant to build a multipurpose athletic field next to the Sequim Boys & Girls Clubhouse. The field will be used for youth soccer and football, along with other physical activities. This project is part of the club's strategy to expand outdoor activities and will complement the club's organic garden, playground, and basketball court. The Olympic Peninsula Boys & Girls will contribute \$11,848 in donated cash. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1880)

Springdale

Grant Requested: \$75,000

Updating Amenities for Springdale's Basketball Court

The Town of Springdale will use this grant to improve the basketball court. The Town will install lighting, build a walkway that accommodates people with disabilities to the court, and replace the restrooms that serve the court. Springdale will contribute \$58,700. Visit RCO's online Project Snapshot for [more information and photographs of this project](#). (20-1481)

Fairfield

Grant Requested: \$33,000

Irrigating "The Pit"

The Town of Fairfield will use this grant to install irrigation in a 3.6-acre park, known locally as "The Pit." The park has one baseball field and 2 acres of practice field. With no irrigation in place, the park turns dry and dusty in the summer. Adding an underground

Youth Athletic Facilities

Project Summaries (In Rank Order)

sprinkler system would be the first step in improving the park and increasing its use. The Town would like to turn “The Pit” into a mini-sports complex in the future. Fairfield will contribute \$11,000. Visit RCO’s online Project Snapshot for [more information and photographs of this project.](#) (20-1747)

Milton

Grant Requested: \$75,000

Renovating Milton Community Park Courts

The City of Milton will use this grant to renovate its outdated and failing sports court area in Milton Community Park. The City will resurface the tennis and basketball courts and stripe the courts for tennis and pickle ball on one side and a full-sized basketball court and field hockey on the other. The City also will add fencing and lights and restore the landscaping. The current court is asphalt and in poor condition. Milton will contribute \$65,000. Visit RCO’s online Project Snapshot for [more information and photographs of this project.](#) (20-1864)

Colfax

Grant Requested: \$75,000

Renovating the Colfax Pool Mechanical Room

The City of Colfax will use this grant to upgrade mechanical systems at the Colfax Municipal Pool, which was built in 1969. The City will upgrade the filter system, motor and pump, chemical monitoring and application system, and the electrical system. The City wants to be able to reduce closures caused by mechanical failures and chemical imbalance. The Colfax Swim Team uses the pool for all of its training and swim meets with teams from communities in Adams, Columbia, Garfield, and Whitman Counties. Colfax will contribute \$41,969 in cash, equipment, staff labor, and materials. Visit RCO’s online Project Snapshot for [more information and photographs of this project.](#) (20-1784)

Wilbur

Grant Requested: \$59,331

Making Improvements to Youth Support Facilities

The Town of Wilbur will use this grant to improve connectivity to its pool and BMX dirt track areas. The Town will build a path for people with disabilities and replace the outdated restrooms in the park. The improvements will increase usability of these athletic facilities for the entire community and youth in particular. Wilbur will contribute \$19,777. Visit RCO’s online Project Snapshot for [more information and photographs of this project.](#) (20-1429)
