

Mileage for Heavy-Duty Vehicles

Below are the rules for being reimbursed when using heavy-duty vehicles to transport equipment to a worksite.

Reimbursable Costs

RCO will honor the rate in the Washington State Department of Natural Resources' and Washington Fire Chiefs' *Wage & Equipment Rate Guide* that was in place when the use of heavy-duty vehicle occurred.

Please review the section titled "Transportation Vehicles with Operator." NOTE: RCO treats the operator rate and mileage rate separately. The "Daily Wet Rate-\$400" is not applicable.

When billing for this cost, include a description with the following elements:

- Vehicle Type: Pick the specific type of vehicle that matches the list, such as "full size truck."
- Mileage rate: Identify the mileage rate used from the list.
- Miles driven: Identify the miles driven.

Vehicle Type	4x2 Per Mile	4x4 Per Mile	Description
Light Utility, Compact Truck	\$0.67	\$1.14	S10 Blazer, Bronco 4, Chevy S10, Ford Ranger, Toyota Tacoma
Full Size Truck (1/2 ton)	\$0.73	\$1.14	Chevrolet and GMC 1500, C10, K10, Dodge 150, Ford 150
